

JSJ Jodeit / Glamaco (Germany) and Yuntong (China) signed strategic cooperation agreement

JSJ Jodeit, Glamaco (Germany) and Yuntong (China) signed a strategic cooperation agreement on October 19th, 2018.

The cooperation will be focused at the beginning on special heat treatment kilns for glass and glass ceramics, specific bending furnaces, and equipment for chemical strengthening of glass. The cooperation covers the supply of state-of-the-art new production lines, the improvement of existing facilities, and also the joint development of new technologies and equipment.

The newly in June 2018 formed company JSJ Glass Technology (Shenyang), China will also play a key role in this cooperation. Not only in China, but also for projects worldwide, the cooperating companies will play a more and more important role as partner for cost effective high quality equipment and services.
